Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2 and 7-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. The term "link" occurs in claims 2 and 7-10. The Specification does not contain the word "link", and the claims cannot be clearly understood.
- a. Claim 2 recites that the foot supports move in a second , generally perpendicular direction relative to the links. It appears, as best understood by the examiner, that the foot supports pivot on the links and do not move perpendicularly relative thereto. In fact, the portion of the foot support on the pivot axis does not move at all.
- b. Claim 7 states that the links are linked to the first pulley and the foot supports are linked to the second pulley. This is not understood. It appears , according to figures 13-14 that the left link and foot support is linked to one pulley while the right link and foot support is linked to the other pulley.

Specification

4. The disclosure is objected to because of the following informalities: pages 19 lines 25 onto page 21 line 26 are written in a claim type format having numerous semicolons and "said" terminology.

Appropriate correction is required.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Stearns (226) in view of Garcia.

Stearns discloses in figures 16-19 an exercise apparatus having left and right links 40, left and right foot supports 30 mounted on the links for movement in a direction which is different from the movement of the links; and a resistance means 52 which simultaneously adjusts a common resistance to movement of the foot supports and the links. It is noted that the force of gravity also acts upon the foot supports and the links; whereby the resistance is adjusted as the angle of the link changes due to the differing gravity force vectors acting upon the foot supports and the links.

Giving a charitable interpretation of the claim, if applicant means for the initial resistance to be adjustable, then the examiner contends that the modification of Stearns by Garcia's adjustable resistance mechanism 27-31 would have been obvious to one skilled in the art for accommodating different weighted users.

Allowable Subject Matter

7. Claim 1 is allowed.

Response to Arguments

8. Applicant's arguments with respect to claims 1,2,7-10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

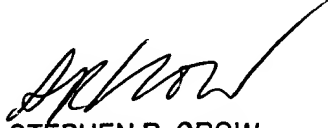

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
